

## **Complete Cattle slaughter & processing line “BANSS”**

**Capacity: 60 cattle / hour**

**Producer: Banns (slaughter line)**

**Built in: 1993/94**

**Condition: excellent**

### **The equipment consists of:**

- 1. 1 runway with covering**
- 2. 1 runway to killing box**
- 3. 1 killing box pneumatic, galvanised european standard**
- 4. 1 landing gutter, galvanised**
- 5. 1 large beast reel, electric**
- 6. 1 bleeding conveyor**
- 7. 1 tubular scale**
- 8. 1 bleeding rail, stainless steel**
- 9. 1 rehanging platform, stainless steel**
- 10. 1 hind-foot tongs, hydraulic pneumatic**
- 11. 1 debleeding hook return system**
- 12. 1 conveyer of empty hooks**
- 13. 1 blood station stainless steel**
- 14. 1 ejection hind-foot, stainless steel**
- 15. 1 before-dehiding platform, stainless steel**
- 16. 1 rodding elastrator for locking the throat, stainless steel**
- 17. 1 front leg and breastbone station, stainless steel**
- 18. 1 front leg chain sterilisation, stainless steel**
- 19. 2 working platforms to dehiding, pneumatic, stainless steel**
- 20. 1 roller devider electric/pneumatic**
- 21. 1 ejection for hides, stainless steel**
- 22. 1 head washing cabinet, stainless steel**
- 23. 1 import station for heads to offal conveyor**
- 24. 1 offal conveyor with hooks stainless steel**
- 25. 1 dripping protection below offal conveyor, stainless steel**
- 26. 1 sterilisation cabinet for offal hooks, stainless steel**
- 27. 1 elevating platform for paunch removal, pneumatic, stainless steel**

28. 1 ejection rail for paunch, stainless steel
29. 1 paunch emptying table, stainless steel
30. 1 paunch receiving and separation table, stainless steel
31. 1 removal platform for red organs, pneumatic, stainless steel
32. 1 inspection platform, stainless steel
33. 1 splitting facility automatic
34. 1 Splitting saw band system working by hand
35. 1 splash protection wall, PVC
36. 1 saw platform, pneumatic, stainless steel
37. 2 inspection platforms, pneumatic, stainless steel
38. 1 paunch conveyor, stainless steel/PVC
39. 1 veterinary platform, stainless steel
40. 1 platform for afterwards assessing, stationary, stainless steel
41. 1 confiscation rail, stainless steel
42. 1 weighing conveyor
43. 1 weighing and classification station
44. 1 carcass shower, stainless steel
45. 1 floor elevator for queried beasts
46. 1 shock-tunnel conveyor
47. 4 cooling rooms railway
48. 1 import station to cooling room
49. 1 transport conveyor to cooling room
50. 2 quartering stations with elevators
51. 2 cooling rooms railway for deboning meat
52. 1 packing section
53. 4 loadingstations for shipping
54. 1 set of cooling equipment  
8 compressors, 2 condensers, 79 evaporators
55. 1 wast water treatment stainless steel with flotation
56. 1sanitary equipment
57. 2 cold storage racks for pallets electric power
58. 1 Deboning line (belt system with tables)
59. 1 Deboning line automatic with round knives
60. 1 red boxes conveyor system
61. 1 red box washing mashine
62. 2 blood section with cooling system
63. 40 doors steanless steel

64. 2 emergency power unit

65. all washing and sterilisation basins and apron showers, stainless steel

66. control unit, Siemens SPS-S5

67. 1 set of spareparts

**Price:** € 1.800.000,-- EXW Germany
